Subject: Dimock samples

Fred,

I checked on the status of the Dimock samples and you should get 4 data packages this week (3 for gross alpha/beta and 1 for Radium-228). We are working on the other analyses and will have the data to you as soon as possible.

Also, we will take the 30 follow-up samples that you mentioned to me last week, but they will have to be put them in line after our already scheduled samples. Please let me know when you are going to send these samples.

Thanks,

Cindy White
